

Appendix 1: Patient-Centered EMR Use Training Survey

1. **PRIOR** to today's training, please rate your **knowledge of barriers** to patient-centered EMR use  
Very Low (1)    Low (2)                      Moderate (3)                      High (4)                      Very High (5)
2. **PRIOR** to today's training, please rate your **knowledge of best practices** for patient-centered EMR use  
Very Low (1)    Low (2)                      Moderate (3)                      High (4)                      Very High (5)
3. **PRIOR** to today's training, please rate your **ability to implement best practices** for patient-centered EMR use  
Very Low (1)    Low (2)                      Moderate (3)                      High (4)                      Very High (5)
4. **AS A RESULT** of today's training, please rate your **knowledge of barriers** to patient-centered EMR use  
Very Low (1)    Low (2)                      Moderate (3)                      High (4)                      Very High (5)
5. **AS A RESULT** of today's training, please rate your **knowledge of best practices** for patient-centered EMR use  
Very Low (1)    Low (2)                      Moderate (3)                      High (4)                      Very High (5)
6. **AS A RESULT** of today's training, please rate your **ability to implement best practices** for patient-centered EMR use  
Very Low (1)    Low (2)                      Moderate (3)                      High (4)                      Very High (5)
7. The training was **effective**.  
Strongly Disagree (1)    Disagree (2)    Neutral (3)                      Agree (4)                      Strongly Agree (5)
8. The training should be **required for physicians and anyone interacting with patients and the EMR**.  
Strongly Disagree (1)    Disagree (2)    Neutral (3)                      Agree (4)                      Strongly Agree (5)
9. The HUMAN LEVEL mnemonic is a **useful framework** to improve patient-centered EMR use.  
Strongly Disagree (1)    Disagree (2)    Neutral (3)                      Agree (4)                      Strongly Agree (5)
10. I plan to **change my practice** and how I interact with patients and the EMR **as a result** of this training  
Strongly Disagree (1)    Disagree (2)    Neutral (3)                      Agree (4)                      Strongly Agree (5)
11. What other suggestions/comments do you have about this session? Open-Ended Response

**Appendix 1 Key:**

11-item online survey administered to all trainees upon completion of the 20 minute patient-centered EMR use curriculum training.
